## PROFESSIONAL SUMMARY

---

A Computer Science undergraduate skilled in Python and C, with practical experience building and deploying real-world projects. Known for strong analytical thinking, efficient problem-solving, and effective teamwork. Passionate about leveraging technology to create impactful solutions in a fast-paced, innovation-focused environment.

## EDUCATION

---

**Adi Shankara Institute of Engineering and Technology,** 2022 – 2026  
*B. Tech in Computer Science Engineering*  
CGPA : 7.73

**Vidyadhiraja Vidhyabhavan Higher Secondary School,** 2020 – 2022  
*Higher Secondary Education*  
Grade:97%

## ACADEMIC PROJECTS

---

### AI Job Application Assistant

- Developed a full-stack AI-powered job application platform using FastAPI, React, and MongoDB Atlas.
- Built a multi-agent workflow with CrewAI and Groq LLaMA 3 for job research, resume tailoring, and cold email generation.
- Implemented resume parsing and structured data extraction using pdfplumber and LLMs.
- Integrated the Serper API for real-time job discovery and created a responsive React interface with drag-and-drop uploads and agent status tracking.

### SPARC -Substation Safety and Risk Control System

- Designed an AI-based safety monitoring system for electrical substations using computer vision
- Implemented PPE detection (helmet,gloves,safety vest,shoes) at substation entry using YOLO - based model.
- Integrated the vision system with an automated gate mechanism that allows entry only when all required PPE are detected.
- Developed a real-time web dashboard that streams live camera footage.
- Logged safety violations with images and timestamps for monitoring and audit purposes

## WORK AND INTERNSHIP

---

**Freelance** 04/2026 – Present

Website Development

- Built and deployed static websites for enterprises.
- Used react and HTML to build frontend and hosted the server on Netify.

**PaceLabs (Google Flutter Program)** 06/2024 – 07/2024 | Ernakulam

Flutter Developer Intern

- Developed frontend screens for a mobile application using Flutter.
- Created responsive login and home pages with clean UI and navigation.

## SKILLS

---

**Programming languages** (C, Python) | **Framework & Tools** (Docker(Basics), VS Code, GitHub) |  
**Database** (MySQL) | **Concepts** (SDLC, OOP)

## CERTIFICATIONS

---

Data Analysis Simulation- Deloitte | Agentforce AI Specialist - Salesforce |  
Cloud Computing - NPTEL MOOC | Generative AI Professional - Oracle

## LEADERSHIP AND ACTIVITIES

---

### **Coordinated Event – Brahma 26**

Coordinated a national-level event during the fest, overseeing planning, team collaboration, and smooth execution

### **First Prize – Turing Trials by Ashwamedha 26**

Secured top position in a technical treasure hunt featuring coding and debugging challenges.
